

The Complete Diamond Seal Warranty

Diamond Seal is warranted to provide a hydrophobic (water repellent) barrier that will allow treated surfaces to resist staining from hard water minerals, dirt, oils and acids from assorted products and normal household contaminants. If a coated surface suffers adverse effects due to these causes during the warranted period, Diamond Seal, Inc. will, at its option, either refund the applicable cost of your original purchase of Diamond Seal, or recoat the applicable surface at Diamond Seal's expense.

Registering your warranty

Your Diamond Seal technician will provide a card to be completed and mailed or you can register on-line at www.diamondsealoregon.com. Once your registration is received, your warranty will be in effect as of the date of installation.

Diamond Seal is accountable

You won't find Diamond Seal on shelves for sale. But you will find Diamond Seal technicians at work in your community. We do business the old fashioned way, person to person with complete accountability for product performance and customer service.
